INVENT IN INVEST

🎯 The Opportunity

Growth-stage CFOs, investors, and executives spend **hundreds of hours each quarter** reconciling data across disconnected systems (ERP, CRM, HR, Excel), leading to:

- **2–4 week reporting delays**
- **1–3% annual revenue loss** due to manual errors
- **30–40% of finance bandwidth** wasted on repetitive consolidation

Without a unified system, teams rely on fragmented spreadsheets and expensive consultants—creating a costly bottleneck for growth and investor confidence.

💡 Our Solution

iNi unifies **portfolio management, reporting, analytics, and M&A support** into one **AI-powered finance platform**. Through secure API integrations, iNi **ingests, cleanses, and consolidates** financial data automatically. Its proprietary **finance-intelligent engine** understands how finance teams think—automating driver-based forecasts, valuation models, and due diligence workflows.

✨ **Result:** Real-time, contextual insights that replace manual work and empower faster, smarter decisions.

📊 Market Opportunity

- **TAM: $50B+**
  - 500K U.S. firms
  - $5M–$500M revenue × $100K ACV
- **SAM: $10B**
  - 100K mid-market firms ready for automation
- **SOM: $200M ARR**
  - Capturing just 2% of SAM in 5 years

Market Timing: Cloud adoption, open APIs, and AI/ML advancements have finally made unified finance intelligence achievable just as finance teams face increasing pressure for real-time insights with leaner resources.

💼 Business Model & Traction

- **Dual Model:** SaaS ($5K–$15K/month) + Professional Services ($25K–$150K/engagement)
- **Target ACV:** $100K–$250K
- **Gross Margin:** 80–85%
- **Validation:** $20K+ paid services

🧠 Competitive Advantage

1. Proprietary Data Architecture → Encodes financial relationships & performance benchmarks from real engagements.
2. Embedded Finance Expertise → 12+ years of FP&A & M&A experience translated into automation logic.
3. Dual-Channel Go-to-Market → Converts professional-service clients into recurring SaaS users, creating an organic growth loop.

🔹 **Defensibility:** A finance-intelligent platform that's context-aware, workflow-integrated, and uniquely difficult to replicate.

👥 Team

Venu Vegi – Founder & CEO
12+ years leading FP&A, Strategic Finance & Corp Dev at **Visa, Macy's, Gap, and Sauce Labs**. Deep domain expertise across finance and technology.

💰 The Ask

Raising: $700K–$1.2M Seed Round to accelerate product-to-market scale.

Use of Funds:

- **60% Product Development:** MVP → SaaS launch
- **25% Go-to-Market:** Customer acq. & pilots
- **15% Team Expansion:** Engineering & GTM hires

Key Milestones | Target ARR:

- **Year 1:** SaaS pilots & onboarding | **$250K** ARR
- **Year 2:** 50+ customers | **$600K** ARR
- **Year 3:** Scale & Series A readiness | **$3–5M** ARR

🌍 Vision

To become the **first self-service finance and M&A platform** empowering early- and growth-stage companies with **real-time strategic intelligence** transforming how finance leaders operate, collaborate, and decide.
